

# ADVANTIVE ACADEMY COURSE CATALOG

Product: WinSPC

Year: 2025

Each quarter, the Advantive Training Team hosts a series of live, instructor-led courses that provide an overview of the key features and tools within WinSPC.

This Project Training Series will prepare users to manage projects successfully and efficiently!\*

Want to be certified in WinSPC? We also offer certification for those that demonstrate a mastery of knowledge of the WinSPC application. Contact us to find out more!\*\*

\*Prices are as of January 1, 2025.

\*\*Please contact us at [trainingteam@advantive.com](mailto:trainingteam@advantive.com) to apply for the certification program and to inquire for other combined training packages and quotations, including private group and on-site training.

## May 28 | Data Set Overview

- This Masterclass explains what the data sets are and what they are used for.
- It also includes examples of how power users are leveraging these data sets effectively.

## June 25 | Report Customization

- How to insert custom logos into your reports to align with branding.
- The basics of banner customization options that allow you to tailor the visual presentation.
- How to place custom statistics in specific areas of the report for emphasis.

## July 23 | Report Automation

- How to schedule reports to run automatically on Windows systems.
- How to generate dashboards and how to update them as part of the automation process.
- How to automate emails that can be configured to distribute reports to stakeholders.

## August 20 | Calculated Variables

- Create derived measurements for deeper insights
- Determine minimums, maximums, and grand averages

## September 17 | Variable Analysis

- Use histograms to visualize data trends
- Run what-if scenarios to test assumptions
- Export data for further analysis or sharing

## November 12 | Report Customization: Tags

- Choose the right tags to organize your data
- Filter and sort reports using tags for clarity and focus

## Master WinSPC in Just 4 Days – Virtual Admin Training Course

Unlock the full potential of WinSPC with our comprehensive 4-day Virtual Admin Course. Designed for new and aspiring administrators, this hands-on training will equip you with the skills to confidently configure, manage, and optimize your WinSPC system.

Through a structured series of lessons and real-world exercises, you'll gain practical experience in:

- Setting up Parts, Processes, Variables, Attributes, and Tags
- Building and managing Collection Plans for both manual and automated data collection
- Configuring devices, note lists, control tests, triggers, and templates
- Leveraging powerful data analysis and reporting tools
- Customizing dashboards and using the Plant Monitor for real-time insights
- Administering users, stations, system settings, and archiving data

Each day builds on the last, guiding you through a complete case study that mirrors real-world scenarios. By the end of the course, you'll have a working knowledge of every major feature in WinSPC—and the confidence to put it into action.
